

Birth Alerts BC CLASS ACTION

You may be part of the **Birth Alerts BC Class Action**

A Birth Alert was a message sent by a child welfare worker from the Ministry of Children and Family Development to a hospital before a baby was born. It shared information about a pregnant person and said the hospital should contact child welfare authorities when the baby was born.

Many people were not told this happened.

You may be included even if:

**You were
never
informed**

**Your child was
not taken
into care**

**You are not sure
if a Birth Alert
was issued**

**You can learn more about eligibility, your rights
and options or how to submit a Claim.**
